PROFESSIONAL SUMMARY

B.Tech graduate in Artificial Intelligence Data Science with hands-on experience building responsive web interfaces using HTML5, CSS3, JavaScript, React.js, and Bootstrap ,tailwindCss. Developed and maintained full-stack applications with Node.js, Express.js, and MySQL databases. Experienced in creating user-friendly layouts, implementing responsive design across browsers, and collaborating with development teams using Git and Agile methodologies. Seeking to contribute strong frontend development and problem-solving skills to a growing IT team.

EDUCATION

Thakur College of Engineering & Technology

Bachelor of Technology — Artificial Intelligence & Data Science

- Relevant Coursework: DBMS, Data Structures, Computer Networks, Operating Systems, Web Development, Object-Oriented Programming

Mumbai, Maharashtra

Nov 2022 – Jun 2026

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6 + DOM + API), React.js, Bootstrap, Tailwind CSS, jQuery, Responsive Design, Cross-browser Compatibility

Backend Database: Node.js, Express.js, PHP, MySQL, MongoDB, REST APIs, Firebase, WebSockets

Reporting: Power BI, Tableau — test status dashboards, defect reports, stakeholder updates

Development Tools: Git, VS Code, Postman, Chrome DevTools, Agile/Scrum

Additional Skills: SEO basics, Power BI, Python scripting, Manual Testing, Good English communication, Data Analysis

EXPERIENCE

Web Developer Intern

Prodigy InfoTech, Mumbai

Nov 2024 – Dec 2025

- Built and tested company landing pages using HTML, CSS, and JavaScript — checked each page manually across Chrome, Firefox, and Edge before marking it ready for client review.
- Tested REST API connections with Postman — when an endpoint returned wrong data or failed, wrote a bug report describing what was expected, what actually came back, and how to reproduce it.
- Sat in on UAT sessions with the client-facing team — helped note down which features passed, which needed fixes, and updated the tracker after each round.

PROJECTS

AI-Powered Invoice Generator SaaS | MERN Stack, Gemini AI API

Dec 2025 – Jan 2026

- Designed and developed responsive user interface using React.js and Tailwind CSS, ensuring seamless experience across desktop and mobile devices
- Built RESTful APIs with Node.js and Express to handle invoice generation, user authentication, and data management with MongoDB
- Integrated Gemini AI API to auto-populate invoice fields, reducing manual data entry time
- Implemented form validation and error handling on both frontend and backend to ensure data integrity
- Collaborated with team using Git for version control and conducted code reviews to maintain code quality

Urban Water Logging Detection System | IoT, React, Firebase

Oct 2025 – Dec 2025

- Tested real-time sensor data flowing from IoT devices to Firebase — verified that readings were accurate, alerts fired at the right thresholds, and the React dashboard updated without lag.
- Ran UAT on the dashboard with actual users — defined what was in scope, collected feedback, fixed issues, and released a test status report at the end of each test cycle.
- Published a research paper on the system — wrote up methodology, test results, and conclusions clearly enough for peer review and academic publication.

Streamify — Video Conferencing App | React, Node.js, WebSockets

Sep 2024 – Dec 2024

- Tested WebSocket-based chat and video calls under different network conditions — found and reported two stability bugs that appeared only when multiple users joined at the same time.

CERTIFICATIONS

Oracle Analytics Cloud 2025 Certified Professional — Oracle | Full-Stack App Development with ChatGPT — Coursera

Power BI Certification — Udemy | Virtual Internship: AI & Data Analytics (Green Skills) — AICTE / Shell India / Edunet

TCS iON Career Edge — Interview & Job Readiness | Web Development Workshop — Microsoft Student Ambassadors Certificate of IDEATHON — ABV-IIIITM Gwalior
